PROFILE

Creative Web Developer with 5 years of experience, leveraging JavaScript to build responsive websites, and specialized in ReactJS library, seeking to be full stack developer using NodJS and MongoDB in the back-end.
Providing high-impact web solutions for diverse industry organizations, aspiring to combine broad background with strong technical skills to excel as a Front-End Developer, I work well both independently and as part of a team.

EXPERIENCE

FEB 2017 – DEC 2021, ALGIERS – ALGERIA

FRONT-END DEVELOPER, TOP ACADEMIC SERVICES QUALITY (TASQ)

I had joined to **TASQ** as internship for three months , then they hired me as junior front-end developer, and after one year I specialized as React Js developer for the last three years ,we created several projects for clients.

Major Accomplishments:
- Translated design team's UX wireframes and mockups into responsive, interactive features, using HTML/CSS , JavaScript and ReactJs (React, Redux).
- Build E-commerce sites and definition layouts for companies using React, Sass and other technologies.
- Maintaining an organized workflow using a project management tool using Git and Trello.
- Worked alongside a team of 2 developers to build **TopFood** APP for backend using NodeJs .
- Communicating technical issues in an understandable manner to the team.

JAN 2022 – PRESENT

FRONT-END DEVELOPER, FREELANCER

I have developed and fixed bugs for many web applications with HTML/CSS, BOOTSTRAP, React JS and Node JS … etc.

Major Accomplishments:
- Built single-page applications with JavaScript on a custom-built framework
- Modified websites for front and backend using NodeJs ,Express, and ReactJS .
- Applied media queries to create responsive website across different size of screens.
- Supported existing applications like adding new features to a webpage, data corrections, and development issues.
